

TFW Poverty Challenge and Million Village Challenge **SPECIAL NOTICE**

Dear Friends,

Due to some new legal regulations of the government of India, we need to move the venue of this year's TFW Leadership Meetings from New Delhi to Bangkok.

We are very very excited about the amazing momentum of the Million Village Challenge and eager to have your leadership with us in it this October!

Please make it a priority to come!

Sincerely,

Hal Jones President@ghni.org

TFW Poverty Challenge and Million Village Challenge UPDATE

Greetings dear Friends,

Praying for a catalytic movement to the unengaged poor of ONE MILLION VILLAGES!!

Lots of news!

To start with, we are about *one-third* along the way of Model Villages being developed in 1040 window countries. PRAISE THE LORD! From our records we see that we have models started in 22 countries, with 44 more to go!

It also looks like we will have close to *SEVEN* MVC Consultations this year and we are hoping to *double* that in 2017 and then double *that* in 2018!!

This would put us very close to having strategic models developing in all the 1040 window countries by then end of 2020!! Of course, God has to do this!

### NEWS BRIEFS

#### INDONESIA

Indonesia had a TFW Consultation including MVC discussions. Praise the Lord as Iman is seeking Training for Transformational Community Development to create more models that will spark a national movement!!

#### EGYPT

A Million Village Challenge Consultation for all of Egypt is scheduled in Cairo on December 1-3 2016. One third of all Arab speakers live in Egypt. Please pray for the leaders of this.

#### IRAQ

A team conducted TCD Training (Transformational Community Development) for Irbil, Iraq. It was really well received and a trainer is headed there for follow up and launch of a model village next month!

#### NAIROBI

The Million Village Challenge Consultation for East Africa is postponed in Nairobi for August 2016. Pray for next date!

HIGHLIGHTS OF THE MIDDLE EAST MVC CONSULTATION, JORDAN

The consultation was historic! Delegates came from 9 countries where there are Arab speakers. Most amazing was that in spite of the fact that Christians were being severely limited or persecuted in many of the countries, the delegates, whom we called HERO'S, shared amazing stories of God's moving. In one country, in many of the churches, there are more Muslim converts to Christianity than historical Christians. The Lord is using the chaos of the times to reveal the real love and truth and peace of Jesus! At the end of the Consultation, 32 model villages were committed to. Since the average model is in a "cluster" of 10 villages, this means approximately 320 villages were committed to!!!

A vision is born for the refugees! MULTIPLICATION!! In Jordan we had 8 Iraqi and 2 Syrian refugees participate in the MVC. All of them have suffered greatly and survived to make it to Jordan. Relief workers found them and discovered that if they asked them to volunteer to help others, many DID join! From that time, many have come to the Lord, volunteer, and now 10 have taken the TCD training so they can train others from their country, both in the camps and also later back in their own or other countries. They have gone from being simply refugees to multiplying disciples!!! Praise the Lord!!

## ALBANIAN TEAM UPDATE

Wonderful testimony of the help of a short-term medical team:

We are thankful to have Dr. Karin from the USA helping us with various trainings. When she was here last fall, she helped Patriot with a TOT I Training (Training of Trainers) in a church plant that is predominately gypsy in the village of Mborja, which is right outside of Korca. She has also been working on health trainings with nurses and women in the villages. It is great to have her with us to help with trainings and outreaches that we have desired to do but have been difficult for us to do because of the lack of staff.
