A Defining Moment for the Church, Family and Community

We stand at a crucial and decisive moment in the chronicle of world history. Looking around at the world today, the Church is faced with so many challenges that need to be addressed with utmost urgency. Nations are clamored with wars and uprisings, social order is at a decline, poverty and injustice are a major crisis with so many homeless, marginalized and orphaned left to fend for themselves, unloved and uncared for. Therefore, in the midst of such mayhem we are obligated to wake up to the call of the crisis and new possibilities notwithstanding our minority status as a Christian community and answer to the divine appointment as committed Christian servants of God to a catalytic event that will work to bring about transformation in our community, city, region, nation and world.

The mission of Transform North-East India 2020 urgently calls the Church to consider critical challenges of our time. It aims to discover God's response to these challenges of our day through seven spheres or domain of cultural influence in nine clusters of North-east India through three generations.
