2016 was GTN's best year yet!

Our existing networks in over 30 nations were active and growing. In addition, there were new networks launched in many more cities of Bolivia, Colombia, Brazil, and Philippines. See pics below of the global summit in Thailand and of new network in the Philippines.

The global president Dr. Mark Beliles was able to travel to nine countries (including Singapore, Philippines, Indonesia, Thailand, Colombia, Bolivia and Brazil), plus our Latin America director visited some in that region as well. Materials in print and dvd were developed in English and Spanish that will be a great resource. See spanish website www.TransformacionGobal.com

One of the key areas of work over the last 3 years has been in Colombia. A dramatic impact in Colombia occurred on October 2nd as a result of work of local representatives there who helped organize rallies against it (see pic below). Citizens voted down a peace agreement that would have enshrined LGBT language and rights in that country. After defeating it, the national media and the President clearly knew that it was due to the Christian votes, so he fired the lesbian leader in his government that inserted all the LGBT language, and replaced her with a Presbyterian minister. He also met with the top evangelical pastors and then made over 60 changes in language to the agreement. This was a great victory for the church and the family in that nation.

A gathering of some of our top representatives from around the world met for strategic planning in Bangkok in October. See the picture below representing Bolivia, Brazil, India, Ukraine, Netherlands, and USA (South Korea and Kenya rep not shown).

Another key nation this year was Indonesia. This majority-Muslim country had a Christian man come into power two years ago as Governor of Jakarta. Beliles spent intensive time disciplining him in Biblical government principles about 7 years ago. Governor Purnama or "Ahok" as is commonly known, is up for election again in February 2017 and is presently under great persecution. He is facing false charges of blasphemy by radical Muslims there who do not want him to be re-elected as leader of the largest Muslim-majority city in the world. He needs our prayers right NOW. See pic at left of Beliles with Ahok.

It was truly a blessed year and your giving made it possible to go and serve these nations. Please consider becoming a partner financially and in prayer for this global ministry.

How the Global Network Can Serve You

We identify, gather and connect together people who have a desire to bring their nations into conformity to Biblical principles. The Global Transformation Network is a non-profit ministry that will equip communities across your nation to develop long-term strategic plans for transforming every area of cultural influence for Christ.

Our organization is focused on developing a deep Scriptural basis for the big mission of “making disciples of the nations” (Matt 28) than many other groups so we always emphasize first in-depth teaching from the Bible on the core purpose and principles and best-practices for the key parts of a nation: government, business, education, media/arts, medicine, family, and church. We are able to do short overviews of each area in a conference that is designed to give a big picture to leaders from all these vocations. But we also can teach in-depth on any one of those seven areas and do a conference or seminar on just that one area.

But besides teaching on these things, we then work with leaders in a coaching style that helps them to come together in any of the seven areas, or all of them together, in a united team with a long-term strategic plan that truly will transform their nation. The 5 steps that the GTN teams do in each city & nation are as follows:

1. Provide **general education** of Christians in 7M Great Commission Transformation vision.
2. Identify and providing **advanced training** for 7M leaders
3. Connect trained 7M leaders into **networked teams**
4. Develop and execute long-term **strategic 7M action plans**
5. Develop **funding** for permanent 7M **institutions**

We have developed many materials in print, video, etc,. These transformation tools are available as well as self-assessment tools to help leaders discover where they need to grow and improve if they wish to transform their sphere of influence, their city and nation.
