

## PRAY FOR TW2020 BANGLADESH

God has opened new doors in the TW2020 movement and has blessed us to begin a process of initiating TW2020 Bangladesh at the ending of the year 2017.

A series of meetings and interactions with various Church and mission leaders has taken place across Bangladesh in the months of October and November last year. There is great enthusiasm and expectation for a national event of Transform World 2020 in the country. Individuals and small groups meetings in different parts of Dhaka, Cox Bazar, Mymensing, Mulumghat and Chittagong had taken place with great anticipation for TW2020 Bangladesh Summit. National, regional and grass-root workers were introduced with the movement. In every meetings and interactions, all the individuals and groups we met are willing to be part of this strategic movement of our generation.

Meeting with Ethnic Church leaders and listening to their opinions of TW 2020 movement

At Chittagong local churches

Let us pray that TW2020 Bangladesh can be organize in the later part of 2018 or sometime early in 2019. May this movement also bring great transformation in this very needy nation.

For the nations of Bangladesh, this is one of the best time in its history for God's people to intervene in a large-scale and be a blessing for the people and its land. So many challenges and opportunities are happening right now in its people's lives and the nation, including more than 8 millions Rohingyas refugees fleeing that country in total despair for safety and shelter from neighboring Myanmar. The global Church and national church has to demonstrate in a real sense what it means to be "salt and light" in a crying, confusing and dying world such as Bangladesh in this generation. Bangladesh needs our prayers and transformational engagements.

With you all in God's transformational mission,

Pastor Manglal
