## THE GATHERING WAVE

We praise the Lord that the gathering wave of the Million Village Challenge got some real boosts recently!

Updated research reveals continued growth in Global CHE/TCD/CDE impact!

Over 5,800 communities are engaged, not counting many of the cluster impacted villages.

Our goal is 10,000 communities, amounting to 10,000 clusters which would equal approximately 100,000 villages, or 10% to hit the tipping point.

80% of the poorest 150 countries in the world have MVC connections going on.

It's over 90% if you take out the small island nations of the Caribbean and South Pacific Islands.

The 1040 window countries now have over 80% penetration with MVC connections and are expected to be well over 90% by the end of 2019.

Keep PRAYING for 10,000 Model Villages by the end of 2020.

I believe we'll be close to 7,000 at the end of 2019. Our God is able!!!!

Momentum is really gathering as you will read below.

Send us **your** successes and planned trainings to: [president@ghni.org](mailto:president@ghni.org)

We want to celebrate with you and be in collaboration with you.

## BLESS CENTRAL AMERICA MVC IN GUATEMALA

There is no easy solution to the Central American migrant crisis. But, why not work to improve their home villages so that they do not need to flee from their homes?  
Through CHE/TCD/CDE, we can teach practical strategies such as improved agriculture, health promotion, and microenterprise, along with the power of Christ to bring new life. Among the communities and villages involved with CHE in Central America, migration is very minimal.  
See below in MVC Consultations.
