CENTRAL CONGO

Malnutrition to Transformation to Cluster Expansion

All the nutrition training was combined with stories about the love of Jesus and his offer of adoption into his family. This discipleship led to planting a church of excited believers. Now there is hardly anyone in that village who has not been impacted both physically and spiritually.

This village is now reaching out to the villages around it in ways that connect to the needs of people's bodies and souls. The CHE teams have taught people to teach others to fish, and in the process to share the good news about Jesus.
